It is important to note that non-medical marijuana is conditionally permitted, not legalized.² Despite recent Ohio legislation, by federal law marijuana continues to be a schedule I controlled substance for medical non-medical marijuana and a schedule III controlled substance for medical marijuana.³ Moreover, failure to possess or use marijuana within the conditions permitted in Ohio is a felony or misdemeanor criminal offense, including illegal drug trafficking,⁴ illegal cultivation of marijuana,⁵ and illegal possession of a controlled substance.⁶

IX. Community control supervision/probation.

In *State v. Jones*, 49 Ohio St.3d 51 (1990), the Supreme Court held valid probation conditions must:

- 1) be reasonably related to rehabilitating the offender,
- 2) have some relationship to the crime of which the offender was convicted, and
- 3) relate to conduct which is criminal or reasonably related to future criminality and serves the statutory ends of probation.

In *State v. Ballash*, 2026-Ohio-503, the Supreme Court modified the test set out in *State v. Jones* when the probation condition is authorized by statute. Statutory probation conditions are set out in R.C. 2929.17 (felony), R.C. 2729.27 (misdemeanor), and R.C. 2951.08.

Under *Ballish*, a statutory probation condition does not have to be related to the convicted offense, but must still relate to the underlying purpose and principles of sentencing. The Court in *Ballish* reaffirmed that any probation condition is subject to review as an abuse of discretion. Marijuana, medical or otherwise, may be prohibited as a probation condition, for example, when a defendant has a substance abuse issue. (Theft for drug money when the theft offense was not directly related to alcohol or drugs.) It could not be imposed as a general court policy without some nexus to the case or the defendant's situation.

The immunity from arrest or criminal prosecution for lawful use of marijuana does not apply to probation violation/revocation.⁵⁴

⁵³ R.C. 2953.321(C), provides "The person may file the application at any time on or after the effective date of this section."

⁵⁴ *State v. Williams*, 2025-Ohio-461 (8th. Dist.). Community control supervision revocation for medical marijuana use was affirmed.
